Work Experience

Full-Stack E-commerce Developer

Reach Studios Ltd., Sheffield, United Kingdom | July 2024 – Present

- **Leadership & Recognition:** Promoted to Mid-Level Developer and twice named Team Member of the Month (Aug 2025, Aug 2026). Mentor junior developers through code review and translate stakeholder requirements into scalable solutions.
- **Platform Engineering:** Built and maintained a scalable Magento 2 B2B platform replacing a legacy SAP system, implementing customer-group pricing, custom workflows and PunchOut procurement integrations.
- **Performance & Reliability:** Improved search performance with Elasticsearch, optimised backend processes, developed reusable components and applied security patches to improve platform stability and maintainability.
- **Infrastructure & Delivery:** Managed deployments using Docker, Hypernode, cPanel, Plesk, ANS and CI/CD pipelines, delivering 10+ Magento projects to production while leading several technical implementations.
- **Quality & Automation:** Introduced automated testing and code-review standards into the CI/CD pipeline, cutting regression defects by 20% and reducing release cycle time from hours to minutes.

Junior Web Developer

Net World Sports, Wrexham, United Kingdom | July 2022 – June 2023

- **Component-Based Development:** Developed reusable React and Vue.js components within a microservice architecture, integrating Node.js and Express.js backend services and REST APIs to build scalable web applications.
- **Magento Migration:** Migrated 40+ e-commerce stores from Magento 1 to Magento 2, cutting page load times 30% and lifting Lighthouse scores by ~15 points.
- **Engagement & Productivity:** Revamped the company blog (mobile-first) for a 40% engagement lift and built an API-driven Chrome extension that raised productivity 60%.

Java Programmer (Internship)

Racks & Rollers Storage Technologies and Automation, Bengaluru, India | January 2020 – July 2020

- **Pick-to-Light System:** Designed a Pick-to-Light system GUI in Java that improved warehouse efficiency.
- **Quality & Process:** Worked across the full SDLC using Scrum and TDD, cutting bugs 30%.
