

Dabir Hasan Rizvi

Full-Stack Developer | Portfolio: dabirrizvi.co.uk

Sheffield, UK (open to relocation) | dabir.rizvi@gmail.com | +44 (0) 7737 906374 | linkedin.com/in/dabir-hasan-rizvi-738a83185/

Professional Summary

Full-stack developer with 3+ years building scalable e-commerce platforms and modernising legacy systems into fast, maintainable ones. Strong across JavaScript and PHP backends (Node.js, Magento 2) and Vue/React frontends, with solid database design (PostgreSQL, MongoDB) and real, measurable performance and engagement gains.

Skills

Programming Languages: JavaScript, PHP, Python, Java

Backend & Databases: Node.js, Express.js, Laravel, Magento 2, PostgreSQL, MongoDB, RESTful APIs, GraphQL, Elasticsearch

Frontend Technologies: React.js, Vue.js, Alpine.js, Knockout.js, Hyvä, Tailwind CSS, Bootstrap

DevOps & Tools: Docker, Git, CI/CD, Google Cloud Platform, Jira, Agile/Scrum

Work Experience

Full-Stack E-commerce Developer

Reach Studios Ltd., Sheffield, United Kingdom | July 2024 – Present

- **Leadership & Recognition:** Promoted to mid-level developer and named Team Member of the Month (Aug 2025) for project delivery and cross-team collaboration. Mentored junior developers and worked with stakeholders to turn business requirements into technical solutions.
- **B2B Magento Platform:** Built and scaled a Magento 2 B2B platform that replaced a legacy SAP system, adding customer-group pricing, catalog management, custom workflows, and PunchOut integration.
- **Development & Integrations:** Developed custom Magento modules and backend services, improved checkout workflows, and integrated external systems through RESTful APIs.
- **Performance & CMS:** Improved search with Elasticsearch, built reusable Hyvä widgets and custom CMS page-builder blocks, and applied critical security patches.
- **Infrastructure & Delivery:** Managed deployments on Hypernode with CI/CD pipelines, shipping 10+ Magento projects to production and leading several client implementations.

Junior Web Developer

Net World Sports, Wrexham, United Kingdom | July 2022 – June 2023

- **Component-Based Development:** Designed and implemented responsive, reusable Vue.js and React.js components within a microservice architecture, integrating with Node.js and Express.js backend services to deliver high-performance, scalable web applications.
- **Magento Migration:** Migrated 40+ e-commerce stores from Magento 1 to Magento 2, cutting page load times 30% and lifting Lighthouse scores by ~15 points.
- **Engagement & Productivity:** Revamped the company blog (mobile-first) for a 40% engagement lift and built an API-driven Chrome extension that raised productivity 60%.

Java Programmer (Internship)

Racks & Rollers Storage Technologies and Automation, Bengaluru, India | January 2020 – July 2020

- **Pick-to-Light System:** Designed a Pick-to-Light system GUI in Java that improved warehouse efficiency.
- **Quality & Process:** Worked across the full SDLC using Scrum and TDD, cutting bugs 30%.

Education

MSc Advanced Computer Science (with Integrated Year in Industry)

Aberystwyth University, United Kingdom | September 2021 – December 2023

BEng Electronics and Communication Engineering

CMR Institute of Technology, Bengaluru, India | August 2016 – August 2020

Personal Projects

- **IEEE Research Publication:** Co-authored the paper “*Object Tracking Robot Using SIFT Based Computer Vision*”, published at the **IEEE ICECCC 2024** conference. Developed a computer vision-based object tracking system using SIFT for autonomous robotic applications.
- **Blood-Brain Barrier Prediction (Kaggle, 1st place):** SVM model at 90.6% accuracy predicting compound BBB penetration to support drug discovery.
- **Parking Availability Prediction:** LSTM/Random Forest model on Santander sensor data forecasting parking with 77%+ accuracy.

Certification Courses

The Web Developer Bootcamp 2024 | Colt Steele, Udemy | January 2024

Introduction to DevOps | IBM, Coursera | January 2023

Deep Learning Specialization | DeepLearning.AI, Coursera | December 2022

Vue – The Complete Guide (inc. Router & Composition API) | Maximilian Schwarzmüller, Udemy | August 2022
